

Graphical Info

GRAPHICAL PRODUCTION MANUAL

DOCUMENT SETUP:

- Documents:** We can handle print-ready PDF's exported with our joboptions and Transparency Flattener which can be downloaded from www.udstillingssystemer.dk/en/graphic.
- Images Resolution:** 100 dpi 1/1 size (if the document is scaled to 1/4 size, images should be 400 dpi). Images must be in CMYK, converted to Coated FOGRA27. We prefer working with TIF-, EPS-, JPG- or PSD-files.
- Logos/graphics:** All logos and other graphics must be in vectorised form. All fonts need to be outlined as EPS-, PDF- or AI-files.
- Colours:** Colours must be in CMYK. PANTONE colours must be converted to CMYK. Include PANTONE number when ordering and we'll handle the rest. Colours must not be marked as Overprint.
- Fonts:** Please attach a zip file with fonts in Postscript, Opentype or Truetype, if you send an open document.
- Bleed:** Bleed is 5 mm.
- Extra charge for documents:** Remember to add an extra 10 cm to the bottom of your document for roll-ups. We charge DKK 125 extra if this is missing. Example: Dandisplay Roll-up 85x200 cm must measure 85x210 cm.

RECEIVING DOCUMENTS:

- Mail:** We receive graphic on e-mail. If the document size is bigger than 10 MB we prefer WeTransfer.
- Webuploader:** www.udstillingssystemer.dk/en/graphic
- Notice:** Additional work with documents will be charged in the amount of hours used. For further information contact SODEMANN Udstillingssystemer A/S.
